

Utility Operations Manager

This is a professional management-level position responsible for assisting in the administration and direction of all operations and services of the Village of New Bremen. The position requires experience in administration/municipal government operations; experience in civil engineering, including public power, water, wastewater and storm sewer utilities; familiarity with building codes and construction; ability to examine and interpret plans; and supervisory training. The ideal candidate will provide exceptional leadership, planning and coordination for various units under his or her supervision, meeting the normal and emergency needs of the Village. This position is exempt under FLSA, non-classified and reports to the Village Administrator. Full-time position with great benefit package.

Educational and Experience Requirements:

- Associate Degree or higher (specialization in civil, sanitary, hydraulics or water engineering), Public Administration or related discipline
- Minimum five years' experience in a broad scope managerial/supervisory role
- A combination of relevant education, experience and/or Ohio EPA Water Treatment and Wastewater Treatment.
- Must possess a valid Ohio driver's license.

Desirable Qualifications:

- Experience in managing public employees including effective managerial practices and methods
- Experience in Public Utilities-Public Works/Public Power
- Experience in strategic planning, development, performance & data tracking
- Experience or education in new technologies: Global Intelligent Systems(GIS), Supervisory Control And Data Acquisition(SCADA), Advanced Metering Infrastructure(AMI)
- Ohio EPA Water Treatment and Wastewater Treatment Certification.
- State of Ohio Licensed Professional Engineer
